P.O Box 55 - 80113, Mariakani

TECHNICAL SKILLS

Programming Languages: C, C++, HTML, CSS, JavaScript, PHP, TypeScript, Python, Java, Dart and Kotlin, swift

Frameworks: Bootstrap,, Laravel, Angular, Spring Boot, Node.js and Express

Databases: MySQL, MongoDB

Tools: Figma, Swagger UI, Git and Postman .

EDUCATION

PLP Academy 2023 - 2024

Certificate in Software Development

Alx Africa 2023

Certificate in software engineering

Imobilis Technology Training Institute 2022

Certificate in web development

Moi University 2019 - 2023

Bsc. Computer Science 2024

Koelel forces academy 2015 - 2018)

KCSE A - (minus)

PROJECTS

- School management system - PHP Laravel
- Cafe Management System - Angular Java spring boot
- Online shop - Angular Java Spring boot.
- Article Hub - MEAN Stack

Interests

- Staying current with software development trends and technologies
- Mentoring tech beginners
- Volunteering at tech events and workshops

LANGUAGES

Kiswahili
English

PROFILE

Highly skilled Full Stack Developer with a Bachelor's degree in Computer Science and extensive experience in software development. Proficient in multiple programming languages and frameworks, including Java, JavaScript, Angular, and Spring Boot. Known for creating user-centric solutions and collaborating with cross-functional teams to develop, test, and deploy scalable applications. Demonstrated ability to troubleshoot, code review, and maintain high standards in software development practices. Ready to contribute effectively to both front-end and back-end development tasks, leveraging a solid foundation in Agile and Scrum methodologies

WORK EXPERIENCE

E&M TECHNOLOGY HOUSE LIMITED

January - To date

Software Apprentice

- Developed dynamic and modern web applications using Angular, leveraging Bootstrap, Angular Material, and NG Zorro for UI component design and implementation.
- Designed native Android user interfaces in Kotlin, using Jetpack Compose as the framework, making the code more concise, easier to understand, and maintain.
- Developed and maintained robust back-end services and APIs for our dynamic web and mobile applications using Java and Spring Framework.
- Managed and maintained databases to store data, transactions, and other relevant information for easier retrieval by the developed applications.
- Developed a teller automation solution to help banks reduce customer waiting time, improve tellers' working processes, and enhance efficiency by 80%, giving customers more power and access to banking services.
- Consumed developed application APIs to ensure communication between the front-end and back-end, producing responsive and user-friendly applications.

TECHBIZ AFRICA LTD

Computer Science Attachment

September - December 2022

- Designed modern system user interfaces using PHP Laravel framework and Bootstrap to make the developed UIs interactive and user friendly.
- Developed robust backend APIs for dynamic web systems using Java and Spring Boot framework
- Consumed developed APIs to ensure backend communication with the frontend, creating responsive systems for user satisfaction.
- Provided technical support, troubleshooting hardware/software issues on IT endpoints including desktops and laptops.
- Deployed systems to clients and provided training on their operation to enhance customer satisfaction and gather feedback
- Installed and upgraded operating systems and antivirus software, resolving hardware and software issues.

EQUITY BANK (KE) LTD - MALIMDI

Digital Banking officer

September 2020 – May 2022

- Promoted digitization and digital banking channels such as Equitel, Equity Mobile.
- Onboarded customers on digital banking products
- Educated customers on how to use digital banking products
